Profile

Master's student in Advanced Engineering and Engineering Management at Fachhochschule Südwestfalen, with 5 years of experience in product management and product operations across fintech, agritech, and travel tech. Industrial engineering background with previous work experience in German manufacturing companies. Looking for a working student or internship position in product management.

Professional Experience

10.2025 – present	Working Student · <i>Metcon GmbH & Co. KG (Manufacturing), Lippstadt, Germany</i> - Support production and engineering tasks alongside my master's studies. - Help with day-to-day operations, quality checks, and process documentation.
10.2024 – 06.2025	Freelance Product Manager · <i>Independent Projects, remote</i> - Wrote product requirement documents, user stories, flowcharts, and wireframes for client projects. - Worked with clients and developers to agree on scope and priorities.
11.2023 – 10.2024	Product Manager · <i>PT Adya Tours – Via Indonesia (Travel Technology), Indonesia</i> - Built the annual product roadmap together with management. - Wrote PRDs and BRDs, managed the backlog, and coordinated priorities with design, engineering, legal, and compliance teams. - Worked on integrations with airline and hotel booking systems, including GDS (Sabre, Galileo Travelport). - Tested features before release and worked on improvements to user journeys and e-commerce integrations.
02.2023 – 11.2023	Product Manager · <i>PT Komunal Finansial Indonesia (Financial Technology), Indonesia</i> - Responsible for roadmap, feature planning, and development coordination for fintech products. - Turned customer research and analytics into product features and UX improvements. - Helped increase monthly loan disbursement by improving the credit-scoring process and user journey.
04.2021 – 02.2023	Product Operations Manager / Lead / Officer (B2B) · <i>PT Koltiva (Agriculture Technology), Indonesia</i> - Promoted from Officer to Lead to Manager for B2B commodity-traceability software. - Handled requirements, backlogs, UAT documentation, user training, and client communication for web and mobile apps. - Supported implementations for clients including Cargill, Mars, and Nestlé.
06.2017 – 02.2018	Project Engineer · <i>Voith Paper Rolls Indonesia (Manufacturing), Indonesia</i> - Coordinated overseas projects between headquarters, sales, production, and logistics teams. - Monitored production schedules, quality checks, deliveries, and import/export documents.
05.2016 – 05.2017	<i>Job search after graduating.</i>

Internships

02.2016 – 04.2016	Research Intern · <i>Mercedes-Benz Indonesia (Automotive)</i> Redesigned the warehouse layout to improve storage capacity and accessibility.
03.2015 – 08.2015	Production Engineer Intern · <i>Metcon GmbH & Co. KG (Manufacturing), Lippstadt, Germany</i> Supported production scheduling, material monitoring, and quality checks (during my exchange semester at FH Südwestfalen).

10.2013 – 02.2014	Process Engineering Intern · <i>Mercedes-Benz Indonesia (Automotive)</i> Analysed production flow, logistics, and inventory control for commercial vehicles.
-------------------	---

Education

10.2025 – present	M.Sc. Advanced Engineering and Engineering Management · <i>Fachhochschule Südwestfalen, Soest, Germany</i> Focus: project management, lean manufacturing, change management, and digitalisation.
2019 – 2020	Master of Management · <i>Universitas Indonesia</i> - Final grade: 3.26 / 4.00 (approx. 2.1 German scale). - Thesis: <i>The Effect of Digital Advertising on Purchase Intention</i>.
2018 – 2019	<i>Preparation for master's studies.</i>
2012 – 2016	B.Eng. Industrial Engineering · <i>Swiss German University, Indonesia</i> - Final grade: 3.16 / 4.00 (approx. 2.3 German scale). - Thesis: <i>Analysis of Factory Warehouse Design at Mercedes-Benz Indonesia</i>. - Including double-degree exchange semester at Fachhochschule Südwestfalen, Soest, Germany (2015).
2012	Senior High School Diploma · <i>Kharisma Bangsa, Indonesia (SMA, university entrance qualification)</i>
